Industry structure and development

Food processing industry in India is a sunrise sector that has gained prominence in the recent years. Availability of raw materials, changing lifestyles and appropriate fiscal policies has given a considerable push to the industry's growth. This sector serves as a vital link between the agriculture and industrial segments of the economy. Strengthening this link is of critical importance to improve the value of agricultural produce; ensure remunerative prices to farmers and at the same time create favorable demand for Indian agricultural products in the world market. A thrust to the food processing sector implies significant development of the agriculture sector and ensures value addition to it.

The Indian food processing industry holds tremendous potential to grow, considering the still nascent levels of processing at present. Though India's agricultural production base is reasonably strong, wastage of agricultural produce is sizeable. Processing of fruits and vegetables is a low 2%, around 35% in milk, 21% in meat and 6% in poultry products. By international comparison, these levels are significantly low - processing of agriculture produce is around 40% in China, 30% in Thailand, 70% in Brazil, 78% in the Philippines and 80% in Malaysia. Value addition to agriculture produce in India is just 20%, wastage is estimated to be valued at around US\$ 13 bn (₹580 bn).

Your Company is more than three decades old in the food processing sector manufacturing vermicelli, macaroni and other pasta products at its manufacturing units located at Bibinagar in Andhra Pradesh, Gurgaon in Haryana and at Indore, Madhya Pradesh. Over the years, Bambino has emerged as a Market Leader in the pasta industry. The Installed capacity of the Company as on date stands at 1,25,460 MTS p.a and products are sold under the Brand name "Bambino" acquiring enviable reputation in domestic and overseas markets. The Company has a wide distribution network for selling the products.

Opportunities and threats

The food market itself has seen some interesting structural changes in the past few years with the emergence of a diversified palate of choices across functional and indulgent products. Additionally, with greater affluence and exposure, consumers are increasingly migrating from unbranded commodities, to branded and packaged solutions that are hygienic and convenient. Leveraging the Company's brand image, the company has biggest opportunity in increasing in depth and width of the market by offering varied health and nutritional products supported by aggressive marketing initiatives.

However, there being no entry barrier in the food processing sector, new players can foray into this segment thereby intensifying the competition leading to price wars and thereby affecting the realizations. The food processing industry, apart from its cyclical nature, is also subject to the vagaries of monsoon as it is dependent on the agro based raw material namely "wheat". Any change in the availability and price of this raw material can have a direct impact on the profitability of the company. There is also threat of spurious/counterfeit products flooding the market, which can have negative impact on sales volumes of the genuine and reputed players in the market

Future Outlook

The organization has been pioneer in the Pasta Industry. Bambino's telescopic view of the sector is to increase the value to the consumer by providing all the relevant nutritional elements in the products it manufactures. Towards this endeavor the technical team of the Company is developing new products.

Risks & concerns

The major risks faced by our company is intense competition from both organized and unorganized sector, rising prices of raw materials and power deficit particularly in Andhra Pradesh and price wars resorted by competitors, infringement of the brand from unscrupulous manufacturers which may affect the profitability.

Internal Control Systems and their adequacy

The Company has an adequate internal control system commensurate with the size and complexity of the organization. The Company has undertaken a comprehensive review of all internal control systems to take care of the needs of the expanding size of the Company and also upgraded the IT support systems. A system of internal audit to meet the statutory requirement as well as to ensure proper implementation of management and accounting controls is in place. The Audit Committee periodically reviews the adequacy of the internal audit functions.

Human relations/Industrial relations

The company continues to provide extensive training to its sales team to improve its product knowledge and selling skills. The employees are motivated by creating employee friendly working environment and attractive compensation management. The relation with workers and employees remained cordial during the year under review.

Cautionary Statement

AUDITORS' REPORT

We have audited the accompanying financial statements of Bambino Agro Industries Limited (the company), which comprise the Balance Sheet as at 30th September 2013, and the statement of profit and loss and cash flow statement for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the company in accordance with the accounting principles generally accepted in India, including accounting standard referred to in sub section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards issued by the Institute of Chartered Accountants of India. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosure in the financial statements. The procedure selected depends on the auditors' judgement, including the assessment of risks of material misstatements of financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation and fair presentation of financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and also also the reasonableness of the accounting estimates made by the management, as well as evaluating the overall presentation of financial statements. We believe that the audit evidence that we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanation given to us, the financial statements give the information required by the act in the manner so required and give a true and fair view in confirmity with accounting principles generally accepted in India;

- a. In case of Balance Sheet of the state of affairs of the company as at 30th September 2013
- b. In case of statement of Profit & Loss, of the profit or loss for the year ended as on that date, and
- c. In case of cash flow statement, of the cash flow for the year ended on that date.

Report on other legal and regulatory requirements

PAYMENT OF DIVIDEND THROUGH ELECTRONIC CLEARING SERVICE (ECS)

The Securities Exchange Board of India (SEBI) has advised the Companies to mandatorily use ECS facility wherever available for distributing dividends or other cash benefits, etc., to the investors. This facility provides instant credit of dividend amount to your Bank Account electronically at no extra cost. ECS also eliminates the delay in postal transit and fraudulent encashment of warrants. Only individual transactions upto 5,00,000/- would covered under the Scheme.

Under this facility the amount of dividend payable to you would be directly credited to your bank account. Your bank's branch will credit your account and indicate the credit entry as 'ECS' in your pass book/statement account. We would be issuing and advice to you directly after the transaction is effected.

In case you wish to have your dividends paid through ECS and are holding the Company's shares in electronic form you may kindly fill in the enclosed ECS mandate Form and submit it to your Depository Participant. However, in case you are holding the company shares in physical form and wish to have your future dividends paid through ECS you may kindly return the said ECS mandate form duly completed and signed by your at our Registered Office address mentioned elsewhere in this report.

If your do not wish to opt for ECS facility, we strongly recommend that you provide the details of your Bank's Name, Bank's Branch, type of Account and Account and Account Number to your depository participant, in cases where shares are held in electronic form and to us in cases where shares are held in physical form for printing the same on the dividend warrants which will be dispatched to you. In the event of any change or correction in the details that might have been provided by you earlier, kindly send revised particulars to your depository participants or to us as the case may be at an early date.

We request you to kindly submit the ECS / Bank details latest by Saturday, 21 December, 2013 to enable us to include the same for the payment of the current year's dividend.
